San Diego Items.

[From the World 25th inst.]

We have in our office specimens of wheat and barlay from the farm of Mr. Clendenin, at Valle de los Viejas, that are very fine. The wheat is of the Australian and Club varieties and they stand over five feet high with good strong straw. The heads are full and the berry nice and plump, the Australian head being much larger than the Club: The barley is just as good, but not quite so tall, but equally as well filled. The grain in this section is reported as all good, and gentlemen who drove through it yesterday, say it almost hid their horses.

We have been shown a twig cut from an orange tree, on the place of Mrs. de Ames, some fifteen miles from the city, on which are three nice little oranges about the size of partridge eggs. The tree is about ten years old, and is loaded down with this fruit. A gentleman just returned, tells us he was in Valle de los Viejas yester-day, and found all hands busily en-

gaged in harvesting the crop of wheat, barley, &c. We have been sent some of the finest apricots and figs that we have anywhere seen from the ranch of Mrs. de Ames. They were large, luscions and

well ripened. The crop of apricots is about done. Tom Sherman, John Hanion and Mike McCarthy started out for a hunt this morning. When last seen they were in hot pursuit of a little yellow dog in the Chollas valley, under the impression that it was a jack-rabbit.

Prof. A. H. Havell and family left yesterday to rusticate at San Diego. The Professer has been for some time in the excitement and turmoil of business in Los Angeles, so he retires to the shades of rural life amid the fertile fields of San Diego.—HERALD. Now that is a good joke. The fact is there is nothing to see at Los Angeles unless one goes to Santa Monica or "the anchorage." We shall be glad to see new comers, and will try to treat them well.

La Cronica comes to us this week much improved in appearance. It has added a new pictorial head characteristic of the growth and facilities of California. The Cronica is a Spanish paper, and we commend it to all persons reading that language.

"Self-murder, that infernal crime, Which all the gods level their thunderat!" We hope soon. We hope the evil, if in the moon or elements, the plague will soon abate, for really it is horrid this oft-repeated record of suicide. In Julian City, on Tuesday last, Emma Snow, for some cause unknown, put an end to her earthly pilgrimage by taking strychnine. A few hours be-fore she seemed as cheerful as usual, and no one dreamed that she had the dreadfal act on her mind, but seizing the oppertuninty, she swallowed the fatal dose, and so crossed over the fearful gulf that divides the present from the future. An inquest was held and the inqury developed the fast that she had taken the deadly draught from a tin cup near her, some drugs of which remained. There was also some strychnine in a paper near her, and, as a matter of course, the verdict was in accordance with these facts. No cause for the dreadful act is known,

Borrowing Money.

Borrowing money upon the instalment pla is attended with these advantages: The loan can be repaid in small monthly amounts which include the interest and part of the principal, so that by the expiration of the term it can be all paid without any great inconvenience to the borrower; the rate of interest is generally lower; the expenses of obtaining the money are not so great as in ordinary loans, and if it is borrowed upon good paying property then it often happens that the rents will meet the monthly instalments and in time pay off the debt.

For further and other particulars enquire of W. H. J. BROOKS,

Agent for Savings and Loan Society, jel5 tf No. 12 Spring street.

Arrival

Mr. John Archibald has arrived and is pre-pared to loan money at 1 per cent, per month, in sums of \$3,000 to \$200,000 Applications will be received at the office of W. H. J. BROOKS, corner Spring and Temple Sts., Allen's build-ing (up stairs).

THERE may be something providential in this BEECHER business. Had BEECHER continued with a fair exterior for twenty years longer and died a physical, mental and moral giant, the Plymouth Church might have deified him after his death, or at least canonized him. At present his canonization is indefinitely postponed.

California should be well represented at the Centenial next year. No State in the Union can make the display she can, and there is no State that can be more benefited by being brought favorably before the world's representatives at the great Centenial. The people of the State should demand that the work of the Centenial Commission be none faithfully, so that the resources and capabilities of California are prominently presented.

THE Democratic State Convention, which meets to-day, has an unusual opportunity for the exercise of political wisdom. The Republican and Independent Conventions have made unsatisfactory tickets, giving Democracy a glorious opening. Should they make up their ticket of fit men, and adopt a statesmanlike platform, the people will endorse their action. On the other hand, should capitalists control them against the dearest interests of the people, they have no advantage over their opponents.

A NEW census of Los Angeles City and county is being agitated. During the past year our population and wealth have been increasing more rapidly than ever before, and our authorities have but a faint idea of the number of inhabitants and the personal wealth of the City and county. We earnestly suggest to our Supervisors the necessity of an immediate cenmercial street, offers the above reward | sus, thoroughly made, showing in detail our population, value of real estate, value of personal property, acres elry in this town. In the face of this, we may congratulate ourselves on the harmless character of similar visitations in the United States.

For invalids, there is probably no climate in the world superior to that of Los Angeles. We do not mean by this to insure every invalid of a certain cure-many reasons conspire to prevent it. Many invalids have had their constitutions completely wrecked before coming here, and of course such have little hope. Others come debilitated, but disease has not reached the vital parts-these, with care, recover. Home-sickness is the terrible enemy that sometimes blow from the coast, a that besets invalids here, as well as few miles distant. elsewhere. They are surrounded by strange people in an unknown country, and turn involuntarily to their old home, where they have left friends, relations and familiar social customs. Mr. Kalloch's Visit.

The brief tour of Rev. Mr. Kalloch through Southern California has been an event in its way. He has traveled with great rapidity; preached, lectured and delivered public addresses in various places, and the local papers are without exception full of most generous appreciation of his efforts, and testify to the great delight of the large audiences he has uniformly addressed. In San Diego, Riverside, Los Angeles -wherever, in fact, he has spokenthe largest halls have been too small to accommodate the people. Baptists are naturally a few inches taller for this visit of their distinguished preacher; and their cause must have received a great impulse from his visit and inspiring addresses. Turn-Verein Hall, in this city, was crowded morning and evening. There were those there who had not been to church for many years, and everybody, Jews and Gentiles, saints and sinners, seemed to be alike delighted with his eloquent discourses. We can insure Mr. KAL-LOCH a full and appreciative house whenever he visits Los Angeles, which, we hope, will be soon and

The Wheeler Expedition.

As the work of the Wheeler Expedition has commenced, all appertaining to it is interesting to our readers. We find the following in the Denver News: "The field work of the expedition will be carried on by two divisions, one starting from Los Angeles, Southern California, and the other from Pueblo, in this Territory. The latter will be subdivided into three parties-one under Lieutenant Marshall, another under Lieutenant Carpenter and a third under Lieutenant The Indians Relinquish their Rights. Morrison, each of which will probably enter the field during the next few days. Lieutenant Wheeler himself to-day from the Red Cloud Agency, takes charge of the California section, which will also be subdivided as may be deemed advisable. The prospects of the season are very promising, and the importance of the work to be done exceeds that of all previous years.

LETTER FROM WESTMINSTER.

A Large Settlement-The Soil-Disastrons Frosts -- Orange Culture-The Grape Crops-General Crops-Business Firms—Societies.

EDITOR HERALD.-The people of Westminster complain that they have been injured equally by the misrepresentations of enemies and friends. They say they live neither in paradise nor the other place, and they are al- grants. ways thankful when correspondents will tell the truth about their settlement. They have been at work nearly four years, and have certainly ac-complished something worth speaking of, and they are perfectly satisfied with a true picture without any sky blue or rose-colored edging. There are seven-ty-five families in Westminster, settled on small farms, averaging about forty acres. THE SOIL.

The soil is a black, sandy loam, which, when left to itself, produce s a heavy growth of grass, nearly all the ing one emigrant car and injuring an year. The water rises to within a few feet of the surface, and the artesian flow is found at an average depth of one hundred feet. There are over seventy wells now flowing, and the supply is still abundant. There is not a forty-acre tract in the settlement that has not more or less alkali on it, and some of the unimproved land is ruined by the excessive quantity of alkali. On most of the tracts, however, the alkali is distributed in such small quantities that it damages none of the crops, and it is generally regarded as a benefit. The statements made about this alkali have been one of their just causes of complaint, and the above brief statement may be taken as the literal truth about the matter. A peculiarity of the soil is the constant change from the lighter sand to the heavier foam within short distances. The changes do not seem to affect the quality of the land, as the crops grow equally well on either soil.

EARLY AND LATE FROSTS. A real disadvantage that Westminster has to contend against is the early and late frosts. This is apt to destroy young and tender plants, but trees with a good growth remain uninjured. This is a nuisance and a drawback, but it does not hinder the people from prospering, as the facts I shall give will show. Westminster is thus far almost entirely a farming country, and the experiment of raising the semi-tropical fruits has not been fully ORANGE RAISING.

The fact oftenest presented against this is the nearness of the water to the sur- to £15,000,000. face. I have been told, however, by reliable parties who have traveled in Florida, that many of the most suc-cessful orange orchards there are planted on land where the water rises water is generally at a depth of from as well as any in the county. THE VINEYARDS.

It is claimed that grape culture connot succeed here. Mr. Dunskin has over seventeen acres of white muscat grapes, that look as though they ought to do som ething. I counted nineteen perfect bunches of grapes on one vine. I did not count any others, as they present a very uniform appearance. Mr. Dunskin never has watered his grapes, and yet, in the second year, bore five, six, seven and eight pounds to the vine. He wants some one to build an Alden Dryer in Westminster. His lemon trees have been greatly damaged by the frost, so he intends to bud the stocks from bearing orange trees, that stand the frost bet-ter. He has surrounded his orchards, averaging about two and a half acres each, with hedges of willow. These are to protect from the heavier winds

GENERAL CROP.

The barley crop this year will average over fifty bushels to the acre. The corn fields, which they are just begining to irrigate, are as flourishing as they could possibly be.
The corn stands from seven to ten feet high, and the people are ready to measure stalks and yield with the corn raisers of Los Nietos, Santa Ana and

Gospel Swamp.

The yield of potatoes is very great, They are large and clean in appearance, and are delicious eating. The largest story told me about the raising of potatoes here, was given on the hon-or of a gentleman by Mr. Robb. He showed me a piece of land containing twenty rods, from which he has sold seventy-four dollars worth of potatoes this season. The people here will not starve, at any rate. So far as tried, the raising of apples, peaches, and other staple fruits has been successful. The two year old apple trees have now a fine crop of young apples on them. The Kentish cherry has been successful, other varieties have not been tested. The almond orchards look well, and altogether the fruit prospect is very encouraging.

BUSINESS FIRMS-CIVIC SOCIETIES. The two business firms of Westminster, are those of Messrs. Robb & Marquis, and the Co-operative Company The Co-operative Company are erecting a handsome two story building, for a store and lodge building. A movement is on foot to establish a Masonic Lodge here, and if successful the lodge room will be occupied by the Grangers, Masons, and the Church societies in turn. Messrs. Robb & Marquis are two gentlemanly and enterprising young men, who are fighting it out in the business line on their own hook, and are building up a large

There is a large Chinese vegetable garden here that keep three or four teams busy in all directions. Westminster is a success. The people are determined that their growth shall be substantial, and hence their determined stand against "puffing." They want more settlers of the right kind, but they want every new-comer to look round carefully before purchasing. They want no Jonah's gourd reputation. W.

Railroad Collision.

Elko, June 27.—The Western-bound passenger train reached here five hours late to-day. It had collided with the Emigrant train near Tacoma, smashengine. No lives were lost and only one person was injured.

Stockton Politics.

STOCKTON, June 27 .- The delegates to the Democrotic State Convention are departing for the seat of action, as are also many prominent Democrats of the city and county. F. T. Baldwin, of this city, is a candidate for the nom-ination for Lieutenant Governor, and A. W. Raydson for Cougress. The Democratic primaries yesterday passed off quietly. A large vote was polled, and several tickets were in the field. There was considerable scratching. The contest was between the Radical and Liberal Democrats for the Control of the County Convention to be held July 3d, and on District Attorney. The indications are that a majority of delegates elected are Liberals.

Fire Near Sacramento.

SACRAMENTO, June 27. - Friday night the residence of Wm. Coonsman eleven miles from the city, over the Marysville road, was burned with its contents. Mrs. Coonsman was badly burned while trying to save the private papers. The loss is about two thousand dollars. The last ten days the weather has been exceedingly warm.

Foreign News,

LONDON, June 27th.—Special telegrams to the Times say 900 persons persons perished in the floods at Toutested. The older settlers think there louse alone. An outbreak of an epi-is every probability of success, even in demic is feared. It is believed that 2,600 houses have been swept away in the town and its environs. The damages are estimated at from £12,000,000

The Daily News special says the lowest estimate of the deaths in the flooded district is 2,000.

London, June 28th.—The Standard ublishes reports of fearful inundatio in Bohemia, Corinthia and the Tyrol. There has been some loss of life and great destruction of property. Many oridges were carried away, thousands of cattle drowned and the crops in several districts are totally destroyed.

A new broom sweeps clean, as the saying goes, and there are none that sweep cleaner than those manufactured by L. W. Gerrish at his factory, No. 60 Aliso street. This manufactory, recently established in our city, should be well supported, both for the pur-pose of encouraging home industry and a saving in expense, as a better article can be secured here at a less price than that brought from San Francisco.

The Sauret Troupe.

Turn-Verein Hall was crowded last night by a refined and critical audience. The programme of the Sauret troupe brought out their proficiency in the most astonishing manner and the To say that all were delighted would be tame commendation; to say that their equals as performers in this line have never been seen in Los Angeles, would be nearer the truth. With the talent of the gentlemen of the troupe and the genius, youth and beauty of the ladies, we predict for the Sauret troupe a long and brilliant career.

The Wedding Bells.

We received yesterday an elegantly printed invitation to attend a wedding reception of Mr. and Mrs. T. Jeff White, to be given by Col. and Mrs. E. J. C. Kewen at their residence, Mission San Gabriel, on July 1st at 8 P. M. Col. T. Jeff White is a well known citizen of Los Angeles and the bride is Miss Amma Green, of St. Louis, Mo.

Mr. Skinner has the contract for putting a story on the L of the Spring be a large attendance and a general street school house. The work is to be completed before the first of August. The houses will be frame buildings, 36ft, by 28ft, and 14ft high. There

will be two ante-rooms for hats and cloaks, and a room for the library and teacher's wardrobe. The schoolroom will be 30ft by 28ft. It will be lighted by six large windows, and will be well supplied with blackboards.

The houses are all so situated as to have ample grounds for recreation.
These grounds can be easily improved and made very attractive.

The High School building will be re-painted in a way to make it a thing of beauty. When all the improve-

ments projected by the Board of Edu-

SANTA BARBARA ITEMS.

[From the Republican, 22d inst.] The San Diego World pertly recom-mends a railroad between that place and Los Angeles, as a complete ex-tinguisher for Santa Monica. We have been considering the case, and new offer our mite of consolation to the overshadowed city: If worse comes to worse, and the denizens of the former city flee from its sheltering orange groves, and leaves its costly edifices to

it will make a first class cess-pool for its aspiring neighbor. Yesterday morning, before the mur-derer, Jack Cotton, could be brought before the court, it was necessary that his shackles be removed. These irons were placed on him when first arrested in Nevada, and, as he remarked, "were meant to remain on his legs." So securely was he ironed that a blacksmith with a cold-chisel was engaged nearly an hour in removing them.

These were the irons that Jack

thought he could remove in five min-

the habitation of the bat and the owl,

Cotton remarked in conversation this morning that he was not going to swing alone; he was going to have a companion (meaning Mrs. Norton). He said he was a fool to get into the scrape, but he could not help it. He does not feel so confident of his escape, but still puts on his accustomed vulgar bravado.

[From the Republican, 21.] Another large and beautiful magnonia is in bloom in the Odd Fellow's Library. Those who missed the opportunity to see the other, have now a chance to see a more beautiful one.

We understand that In the running match between "Walking John" and "Prima," \$1,000 a side, which took place in San Luis Obispo on the 17th inst., "Walking John" won the dash. Yesterday afternoon a Chinese missionary from San Francisco preached to the Chinese on Cañen Perdido street. The interest in converting the heathen is increasing, and a large number of our church people were present and gave encouragement by

their presence and singing. The warfare over Santa Monica is growing serious. Senator Jones is non-committal. The HERALD is apprehensive, the Express claims com-placency, and the Star, as usual, is

A party of the Wheeler Expedition arrived this morning from Los Augeles with a mule train, bound for the camp near More's Landing, where, for the present, the party will continue their explorations. This is the party that is placed under the charge of Dr. Yorrow for the investigation of some deposits rich with ancient historical

J. D. DUNLAP......Dept. U. S. Marshal Casanovia, Madison county. He was one of six children, all of whom were boys, and he was the black sheep of the family. He knows very little of his brothers, having been away from home since '49. He has, however, four brothers living, all of whom are good, honest men. Lockman took the name of Cotton last year while in Mobile, no doubt actuated to do so by crime. He has a wife living in San Francisco whom he married about fourteen years ago, and who was divorced from him about two years since. His life has been a checkered one and a strange record of crime and hardship-first a sailor, then a miserable stool pigeon, and now a murderer, dyed with the blood of his victim.

Reports from Santa Ana promise a large crop of grain this year, and Mc-Fadden's new vessel will have no difficulty in obtaining full cargoes.

The Sauret troupe give a performance in Anaheim on Tuesday. This troupe is a part of the famous Di Murska company, which has met with such success in San Francisco. Those who fail to attend on Tuesday evening will miss a rare musical treat.

Letters addressed to the following named persons are detained for postage at the Anaheim Postoffice: Mrs. Fannie Mason, San Bernardino; Mendel Meyer, Los Angeles; J. Darley, Canada; J. L. Thorp, Utah.

The recent change in the running time of the trains between Los Angeles and Anaheim, is a great convenience to the citizens of the former place. They can now leave Los Angeles in the morning, do their shopping, etc., in Anaheim and return home the same

[From the Argus, 26th instant..] The Spadra train took out eight cars of railroad iron yesterday.

The twenty-seventh mile of the track eastward from Spadra was completed last night. The railroad construction party were obliged to cut the telegraph wires coming over the track some five miles
